Model 5600

Mechanical Control Valve

Back (without cover)

Features

- Simple mechanical design is easy to use
- Two valve body designs: one for downflow regeneration and one for upflow (covers every valve in the 5600 family - quick access to all internal components)
- Injector/drain modules containing the brine valve, flow controls, and injector are removable from the valve's exterior
- Ruggedly-built timer is designed with heavy-duty 3/8" wide plastic gears
- 5600 controls are user-friendly
- Non-corrosive, UV-resistant, fiber-reinforced polymer valve body
- Economical - small annual power consumption; keeps the time and activates the piston/valve mechanics with a single motor
- Designed with double backwash

Options

- Bypass valve (Fiber-reinforced polymer or stainless steel)
- Low water use piston (uses as little as 29 gal./regeneration)
- Choice of 7 or 12 day clock timers
- Filter or softener control valve
- Upflow or downflow regeneration control valve

Part No. 40730 Rev C
